

Physiosports Brighton & Pursue Health Highett invite our sponsor groups & local community to this free online event.

CONCUSSION IN SPORT

WEDNESDAY 23RD MARCH @ 8PM
ONLINE EVENT INCLUDING Q&A
RSVP ESSENTIAL

As athletes, parents, first aiders & coaches, there are real concerns about the causes & possible health ramifications of concussion in the short & long-term.

Some questions we aim to answer during the event:

- What is concussion?
- Why is managing concussion correctly so important?
- How do you recognise an athlete with concussion?
- How should concussion be managed and treated?
- How and when can someone with concussion return to school, work, and sport safely?

DR ANIK SHAWDON (MBBS, FACSP)
